

## **Envirocheck<sup>®</sup> Report:**

### **BGS Boreholes Datasheet**

#### **Order Details:**

**Order Number:**

28153089\_1\_1

**Customer Reference:**

EC SS&DS Sample

**National Grid Reference:**

359870, 387640

**Slice:**

A

**Site Area (Ha):**

7.46

**Borehole Search Buffer (m):**

1000

#### **Site Details:**

Keeble Trading Estate

Hayward Lane

WARRINGTON

WA1 1PJ

#### **Client Details:**

L And01 Landmark1 Account

Landmark(Test Account)

6 - 7 Abbey Court,

Sowton Ind Estate

Exeter

Devon

EX2 7HY

BGS Boreholes	pg 1	3	23	13	126

**Introduction**

The Environment Act 1995 has made site sensitivity a key issue, as the legislation pays as much attention to the pathways by which contamination could spread, and to the vulnerable targets of contamination, as it does the potential sources of contamination. For this reason, Landmark's Site Sensitivity maps and Datasheet(s) place great emphasis on statutory data provided by the Environment Agency and the Scottish Environment Protection Agency; it also incorporates data from Natural England (and the Scottish and Welsh equivalents) and Local Authorities; and highlights hydrogeological features required by environmental and geotechnical consultants. It does not include any information concerning past uses of land. The datasheet is produced by querying the Landmark database to a distance defined by the client from a site boundary provided by the client.

In the attached datasheet the National Grid References (NGRs) are rounded to the nearest 10m in accordance with Landmark's agreements with a number of Data Suppliers.
